

ORDER / DISORDER

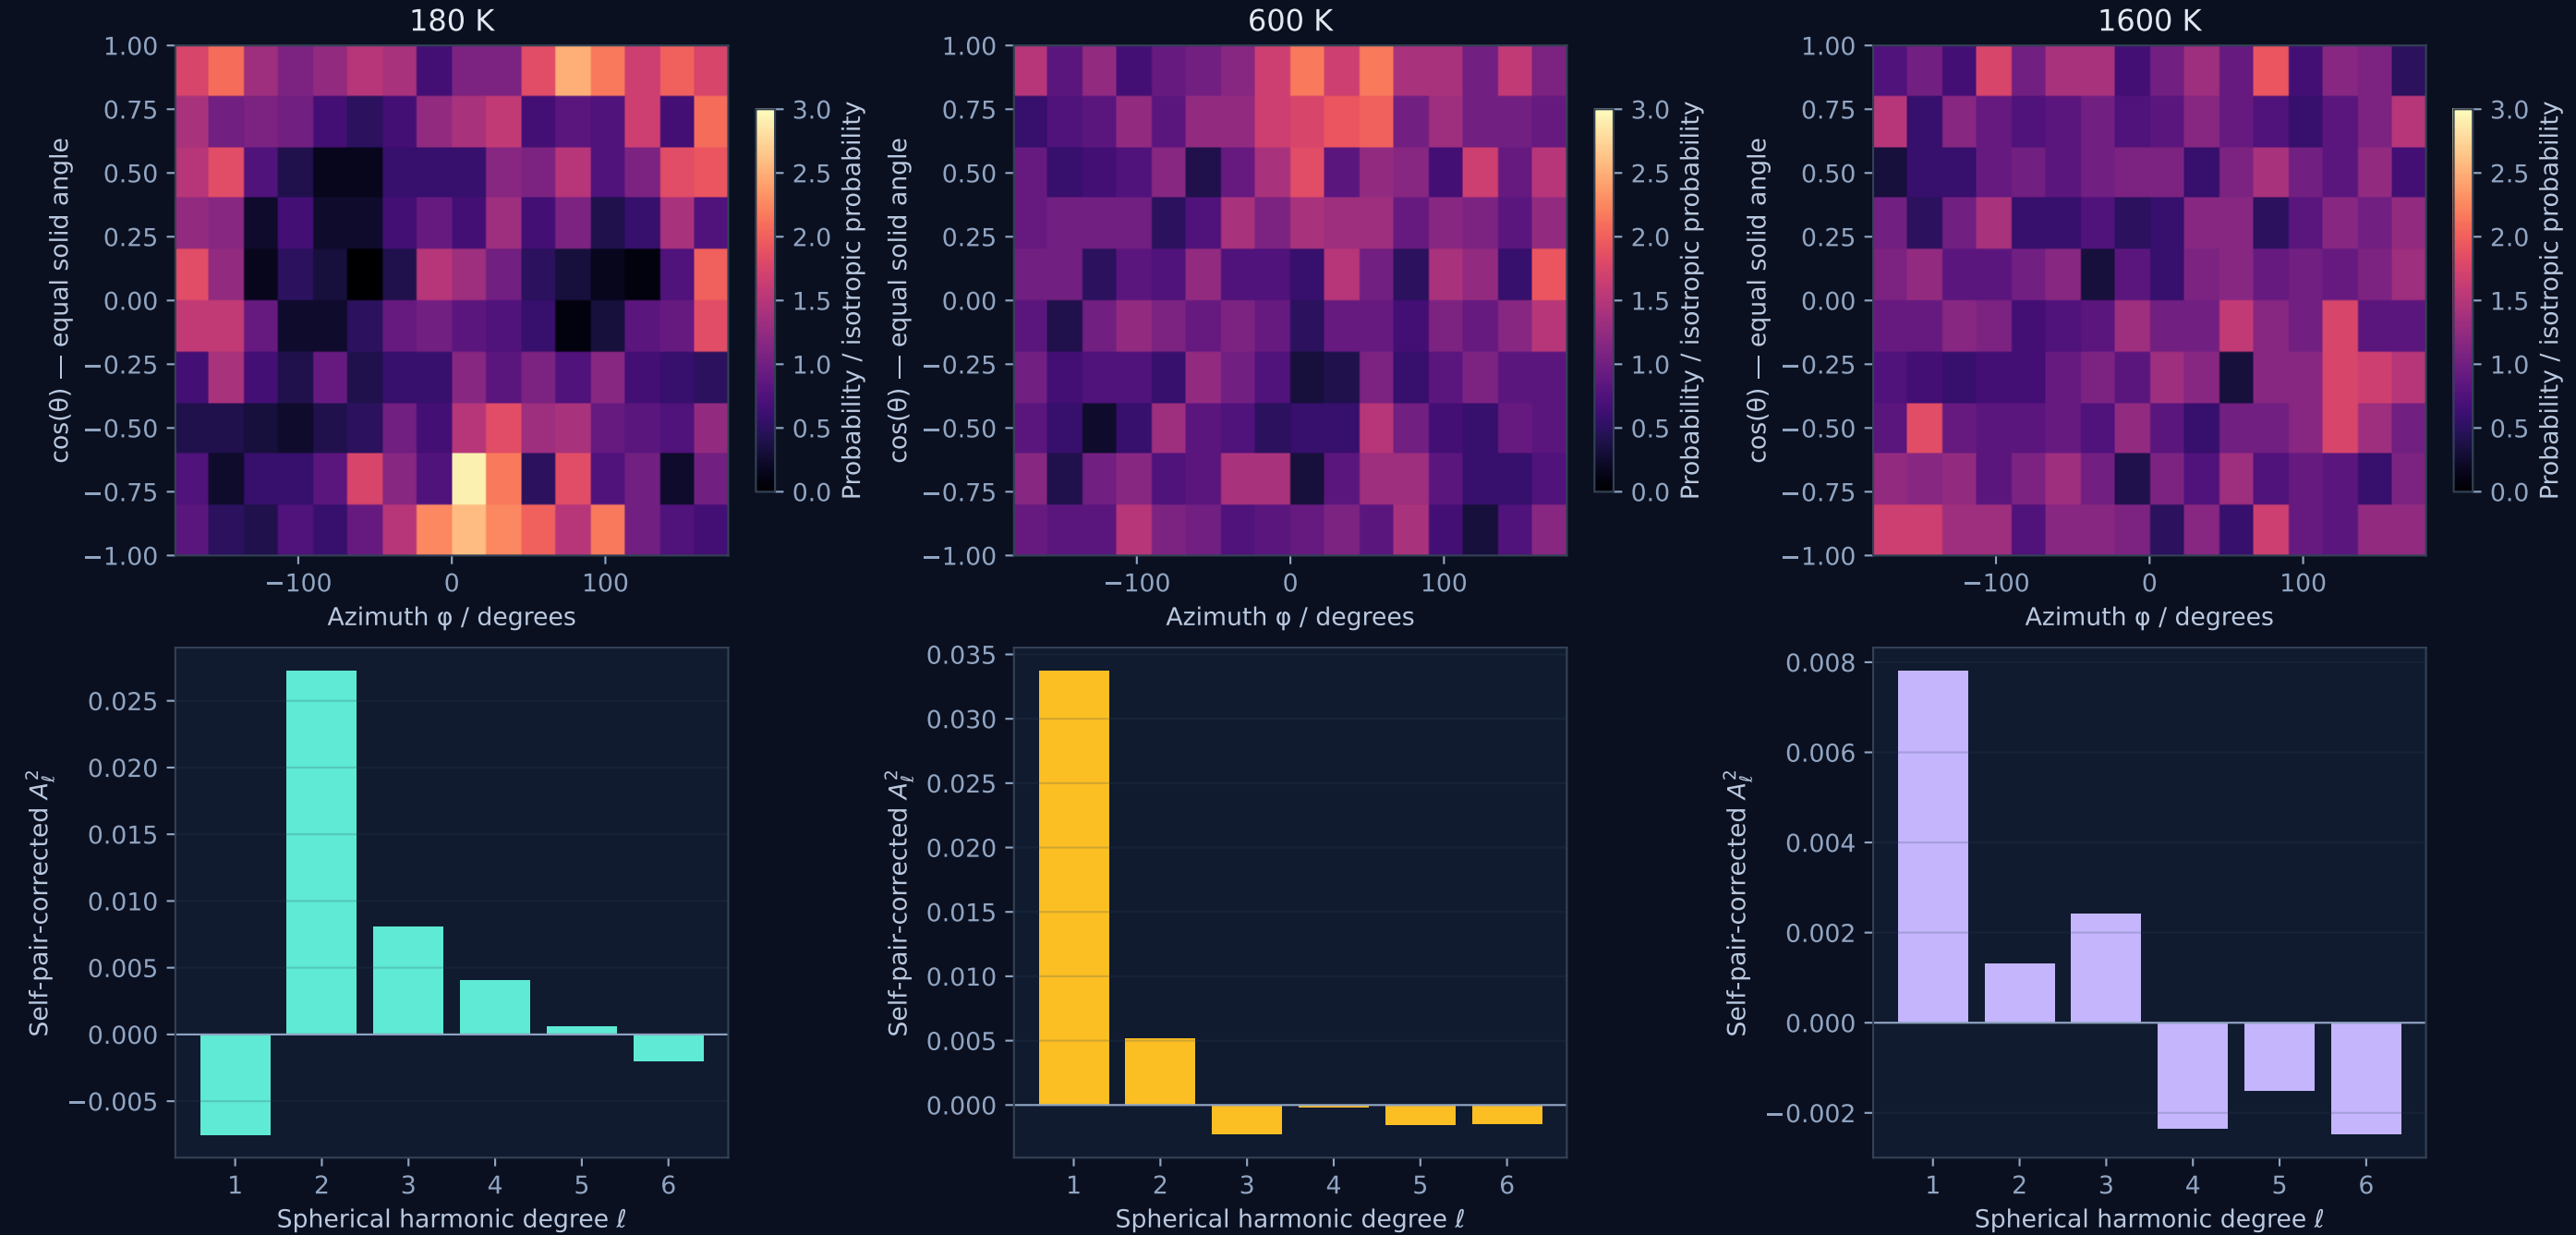

Temperature-path fingerprints

ANGULAR ATLAS / Glycerol-inspired 10 kPa · pooled maps and instantaneous multipole spectrum

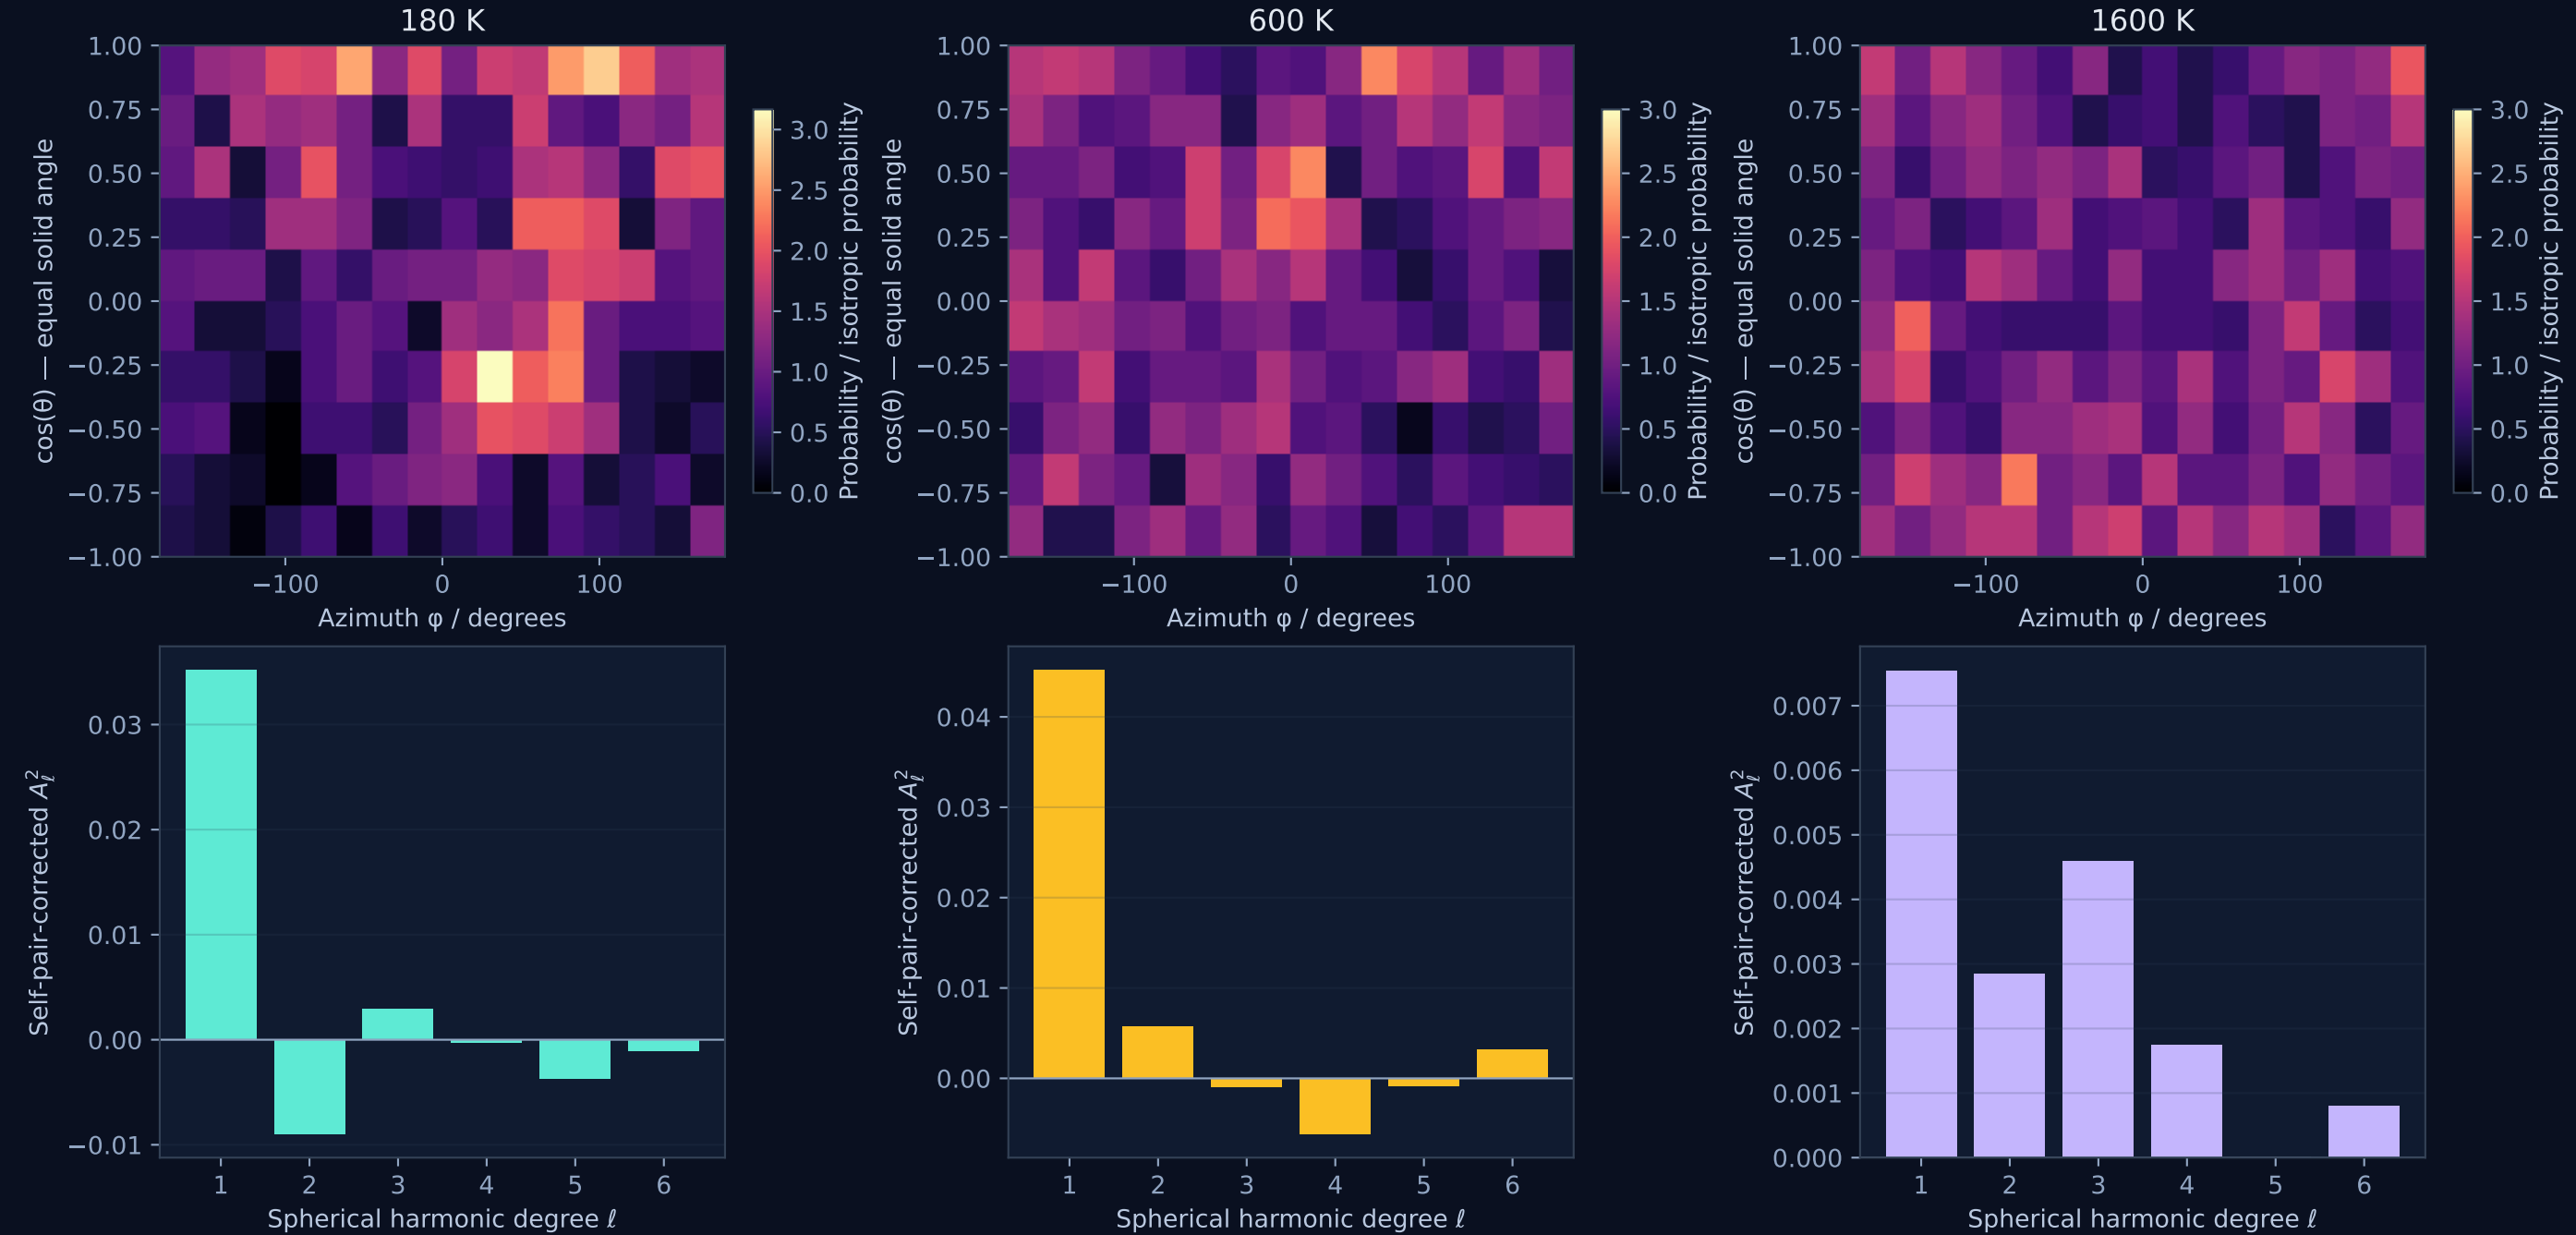

ANGULAR ATLAS / Ethylene glycol-inspired 10 kPa · pooled maps and instantaneous multipole spectrum

ANGULAR ATLAS / DMSO-inspired

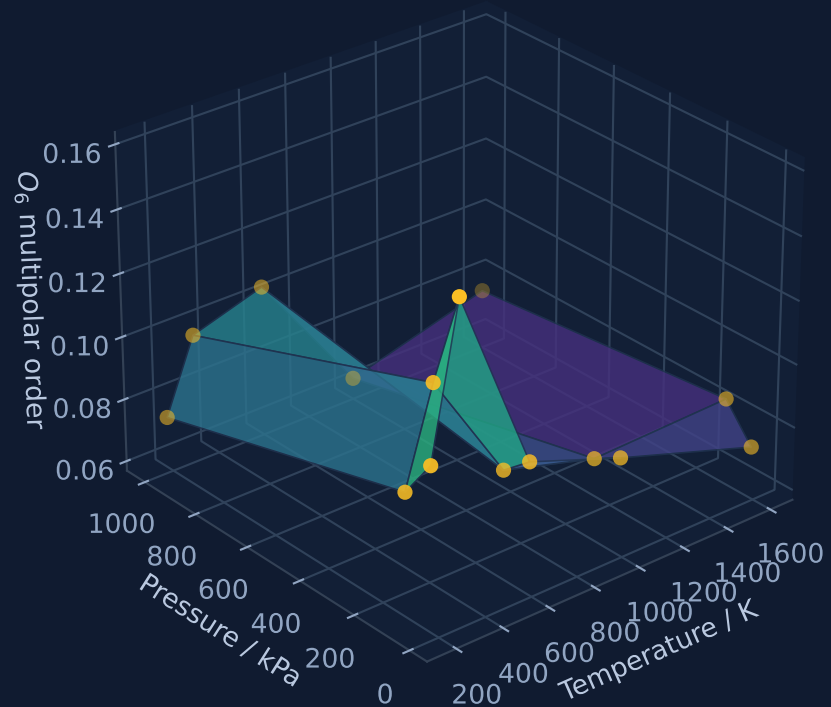

10 kPa · pooled maps and instantaneous multipole spectrum

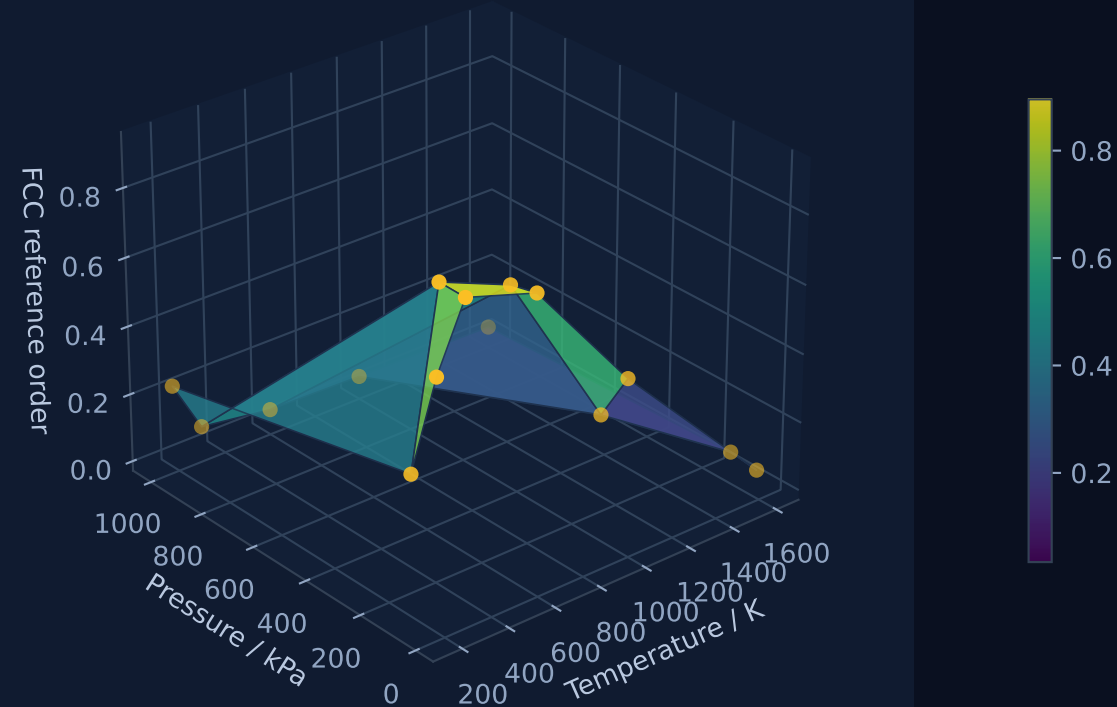

Glycerol-inspired / sampled T-P response

Surface connects sampled points; it is not a coexistence boundary

O_6 multipolar order

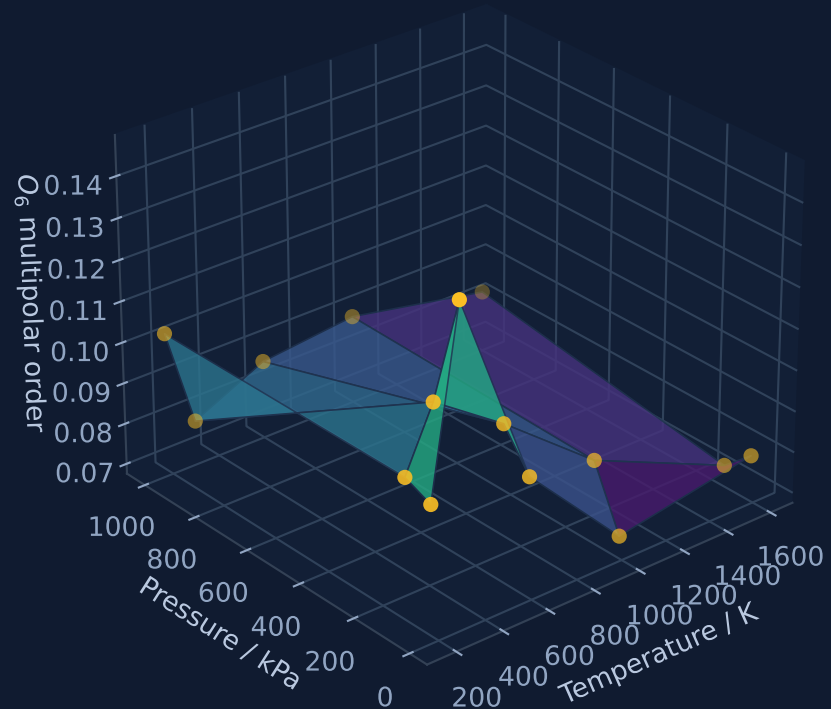

FCC reference order

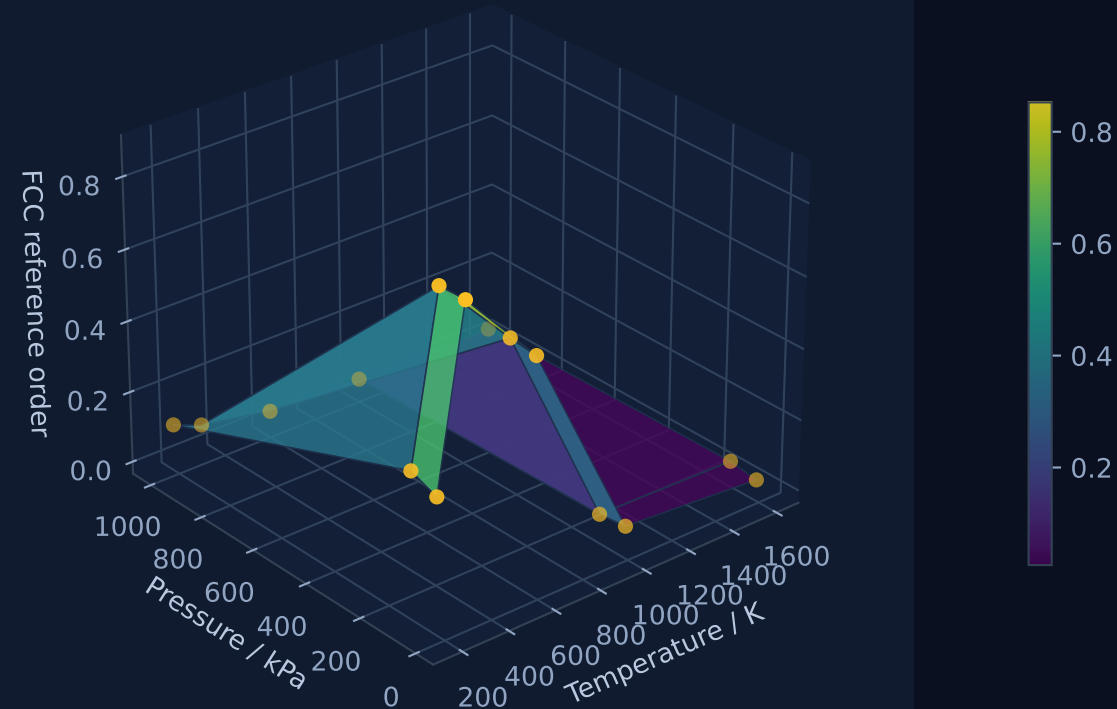

Ethylene glycol-inspired / sampled T-P response

Surface connects sampled points; it is not a coexistence boundary

O_6 multipolar order

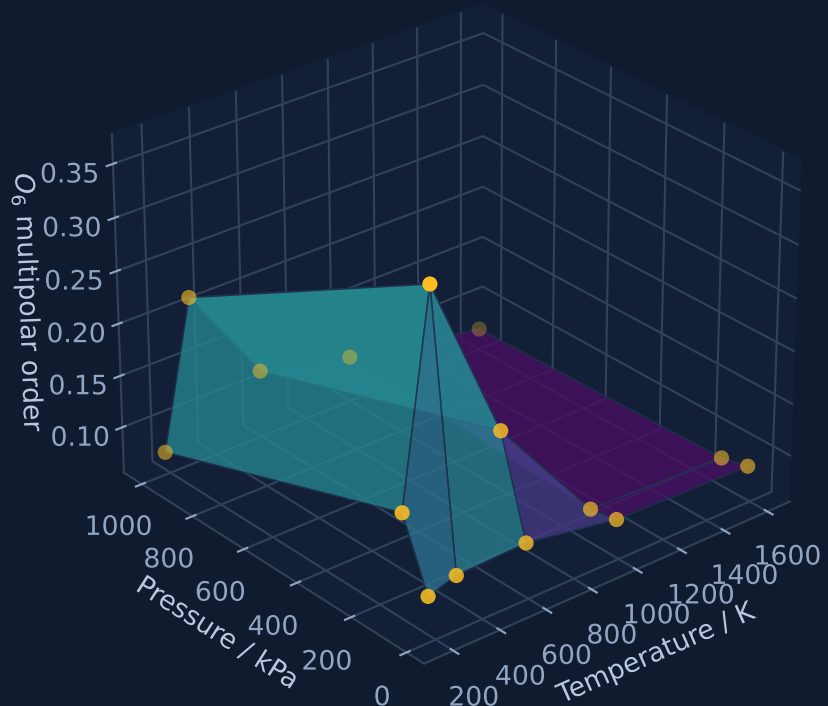

FCC reference order

DMSO-inspired / sampled T-P response

Surface connects sampled points; it is not a coexistence boundary

O_6 multipolar order

FCC reference order
